It's an Exciting Year for Mary Ann Liebert, Inc.!**

## 5 NEW JOURNALS

### **Advances in Wound Care**

Editor-in-Chief: **Chandan K. Sen, PhD**

Print ISSN: 2162-1918 • Online ISSN: 2162-1934

**Bimonthly**

**Advances in Wound Care** addresses the broad interdisciplinary field of tissue injury and repair with emphasis on wound care. The Journal includes up-to-the-minute critical information on acute and chronic wound care,

rapid dissemination of information, translational research, and seminal basic science through novel strategies and applications. **Advances in Wound Care** is an official publication of the Wound Healing Society.

### **Disruptive Science and Technology**

Editor-in-Chief: **Alan J. Russell, PhD**

Print ISSN: 2163-310X • Online ISSN: 2163-3118

**Bimonthly**

This groundbreaking multimedia publication will cultivate, harness, test, and explore how existing paradigms in science and technology can be shaken to their core to make improvements in human health, well-being, and productivity. The Journal will

provide the first destination for those seeking to publish game-changing results that have the capacity to alter the course of the way we live.

### **Games for Health Journal: Research, Development, and Clinical Applications**

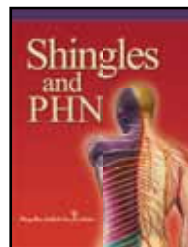

Editor-in-Chief: **Bill Ferguson, PhD**

Print ISSN: 2161-783X • Online ISSN: 2161-7856

**Bimonthly**

**Games for Health Journal** is dedicated to the development, use, and applications of game technology for improving physical and mental health and well-being. The Journal breaks new ground as the first to address this

emerging, widely recognized, and increasingly adopted area of healthcare, and is a must for anyone interested in the research and design of health games.

### **Shingles and PHN**

Editor-in-Chief: **Barbara P. Yawn, MD, MSc, FAAFP**

Print ISSN: 2160-1186 • Online ISSN: 2160-1194

**Quarterly**

A much-needed authoritative resource and central forum for advancing the prevention, treatment, and management of these conditions, this new journal addresses shingles and PHN across the many fields it impacts including virology,

epidemiology, infectious disease, neurology, dermatology, pain management, and primary care, as well as the implications for policymakers and insurers.

### **Human Gene Therapy: Part B: HGT Methods**

Editor-in-Chief: **James M. Wilson, MD, PhD**

Methods Editor: **Thierry VandenDriessche, PhD**

Print ISSN: 1946-6536 • Online ISSN: 1946-6544

**Bimonthly**

Voted one of the most influential journals in Biology and Medicine over the last 100 years by the BioMedical & Life Sciences Division of the Special

Libraries Association, **Human Gene Therapy** is the journal investigators look to for cutting-edge original research, reviews, and commentary in this rapidly evolving field. The Journal has now expanded with **HGT Methods**, focusing on the applications of gene therapy to product testing and development. **HGT Methods** is available as a stand-alone product or as part of the **Human Gene Therapy** package.
