

“Open Access” Options & Benefits

from *Mary Ann Liebert, Inc.*

Benefits of *Liebert Open Access Option*:

Authors who would like their articles posted free online with immediate unrestricted open access may pay a \$3,200 fee. Authors publishing subsequent articles using ***Open Access Option*** will pay a reduced price of \$2,200. Your investment ensures the widest visibility, discoverability, and application of your research.

Authors receive:

- Email message highlighting the article
- Increased visibility - readers, citations, downloads
- Open Access icon with article published online
- Open Access icon with article in TOC if published in a print journal
- Fast track publication opportunity
- Reduced fee of \$2,200 for subsequent open access articles, or for authors who are affiliated with organizations that have an Institutional Membership

If you have any questions, please contact kballen@liebertpub.com

Authors Funded by HHMI and Wellcome Trust: Please follow the instructions for Liebert Open Access Option above.

NIH-funded authors who would like their articles to be posted on PMC immediately without the 12-month embargo period will have the option to make their articles available free online via Liebert Open Access Option for a one-time fee of \$3,200 described above. This fee also makes the article free in perpetuity on the Liebert Online site.
