

Liebert Instant Online (LION)

To enable the release of new scientific findings as quickly as possible, this Journal has adopted a policy of publishing all manuscripts in unedited format online within 72 hours after acceptance. The papers have undergone full peer review but have not been copyedited, typeset, or proofread by the authors.

All newly accepted manuscripts will appear online as a part of Liebert Instant Online (LION). Response has been positive and authors are excited about this accelerated publication service.

Following its appearance on LION, all papers will progress through the normal publishing process, including author correction of galley proofs and online publication of the final edited and typeset manuscript ahead of print.

Press embargos are in place until the date of the publication of the Instant Online version.
