Key Benefits

- Timely, comprehensive coverage of brain and spinal cord injury and degenerative disease
- Groundbreaking research and translational approaches to treating central nervous system injuries
- Expanded focus on spinal cord and peripheral nerve injury

The Experts Say

“Journal of Neurotrauma is the premier peer-reviewed journal specializing in the biology of head and spinal cord trauma. It is an essential journal resource for bench scientists working in these fields, and it is also an important resource for neurological and neurosurgical clinicians.”

--Dennis Choi, MD, PhD
Merck Research Laboratories

Global Visibility and Reach

Over 140 countries

Indexed in

MEDLINE; Current Contents®/Life Sciences; Science Citation Index Expanded; Science Citation Index®; Biological Abstracts; BIOSIS Previews; Neuroscience Citation Index®; Journal Citation Reports/Science Edition; Prous Science Integrity®; EMBASE/Excerpta Medica; Scopus; PsycINFO
