Call for Papers: Special Issue on Drug-Induced Liver Injury

Guest Editor: Robert Roth, PhD

DILI AND IDILI are still a major reason for drug failure in the clinic and withdrawal of drugs from the market. Significant progress is being made with *in vitro* toxicology methods to predict if new drugs will have DILI or IDILI effects and these methods will be highlighted in an upcoming special issue of *Applied In Vitro Toxicology*. Original and review articles are sought in the following general categories:

- Computer Models
- Statistical Analysis
- Cell models and systems

The deadline for manuscript submission is **February 15, 2016**. Please submit your papers online to our web-based manuscript submission and peer-review at:
